Best wishes to The Chronicle and its many readers.

FARRAR'S SCHOOL.

Dear readers of the dear old Chronicle, here I come again with a few words from Farrar. There was a nice little entertainment here Friday evening, when the students presented "Jumbo Jum" and "The Doctor and Patient."

The program included music by the band, a few short addresses and good singing. Teacher and pupils had taken great pains in preparing for the occasion. The school room was resplendent with pictures and flowers and everything else was in apple pie order. Although a little crowded everyone enjoyed it, the only regret was that there was not more of it. Some of the little ones who had never seen a similar entertainment were simply carried away in their ecstasy.

This ends the first term of the school. Our teacher is active and earnest in his work, striving to instruct the children and instill new and higher ideals among them; he has a smile and kind word for everyone, and the little ones seem to regret that school is closed even for a little while. But be of good cheer; it will be only a little while and then school again.

We verily believe these little ones are anxious to acquire an education, and we earnestly pray that nothing may thwart their ambition in this respect. And remember, as the poet says:

"When you have work to do,
Do it with a will.
They who reach the top
First must climb the hill."

Those farmers who planted cotton are glad to learn of the better price on cotton.

Little Miss Lillian Farmer left last week to enter the school for the blind at Nashville.

There is a progressive Sunday school at Hall's Valley. Everyone attend and take an interest.

EFFICIENCY SHOWN.

Nashville, Tenn., October 5.—The old-time "baggage smasher" is fast passing out, and the railroads have stressed the necessity for prompt and careful handling of the baggage of passengers to such an extent that the efficiency of a railroad system may be reflected by its baggage claims.

This is true of the Nashville, Chattanooga and St. Louis Railway which handled 3,010,833 passengers last year and whose total baggage claims amounted to but \$1,604. This includes "Lost," "Damaged" and "Lost, damaged or destroyed" and means that sometimes railroads are called upon to pay claims for "lost" baggage which was never delivered to the road—but that's another story.

CONVENTION ENDED.

Martin, Tenn., October 5.—The thirty-fourth annual convention of the W. C. T. U. closed tonight with a grand jubilee rally addressed by Mrs. Leillian Phelps of New York. Nashville was selected as the place for the next State convention.

Officers for the ensuing year were elected as follows: Mrs. Mary P. Bang of Nashville, president; Mrs. Minnie E. Welch of Sparta, vice president; Mrs. Elizabeth D. Collins of Winchester, treasurer; Mrs. Minnie K. Gilbert of Huntingdon, recording secretary, and Mrs. S. M. Knox of Knoxville, corresponding secretary.

Mrs. J. I. Jones of Monteagle, Mrs. Cenie Patton of Jonesboro, Mrs. Mary P. Bang of Nashville, Mrs. J. W. Crockett of Martin, and Mrs. Hersh of Jackson were chosen delegates to the national convention at Seattle, Wash.

ROBERT GATES DEAD.

Jackson, Tenn., October 5.—Col. Robert Gates, widely known over Tennessee and special industrial and immigration agent of the Louisville and Nashville Railroad, died Monday afternoon at his home, Beverly Farm, in this county, aged 75. He was the father of Robert M. Gates, the well-known Washington correspondent, and Mrs. Carey Folk of Nashville.

TABLE YOUR CONTAINERS

Upon investigation, this department finds that it has been a time-honored custom for people in the country to place in containers sorghum molasses, maple syrup and honey, as well as various farm products, for the purpose of placing on market. They seem to be unaware that the State laws specifically state that they shall contain no salicylic acid as a preservative, if sodium benzoate is used for this purpose, it shall not be over 1-10 of 1 per cent, and so stated on the label.

Also that containers shall bear a label, and if contents are adulterated or colored in any manner, it must be so stated on the label. The label at the same time, must state the net weight of contents. It has come to our notice that the producers in the rural community are selling these commodities without following any of the above instructions.

I take occasion to warn them as well as the merchants purchasing same and reselling to his patrons, that we will be compelled to prosecute all parties concerned, under the laws of this State. Our reasons for this are manifold. We find that in a large number of cases, goods are being adulterated and that short weight is being given, and that there can be no check made upon the matter as long as containers do not carry labels of any description. Merchants will be warned that should inspectors of this department find goods of any character on their shelves, such as suggested above, they shall immediately condemn and prosecute the offenders as violating the sanitary food law of this State.

I sincerely hope that the good people of this community will recognize the reasons we have for taking this action and will cooperate with us by following out the law in every detail.

Anyone upon request to this department will be furnished with a copy of the law governing this matter.

Commissioner.
